

## Design a dream-like room which reflects your interior life.

What colors and patterns are you drawn to?

How do their textures enrich the special feeling you are creating for your imaginary place?

### Materials:

- Cardstock (cut into 5.5" x 4.5")
- Tissue paper
- Patterned scrapbooking paper
- Coloured pencils
- Stencils
- Doillie or fabric patterns
- Cupcake paper cups
- Scissors
- Glue Stick
- 2D or 3D furniture cut outs

**Step 1:** Lay out your piece of cardstock for the background.

**Step 2:** Cut and make familiar shapes with the patterned paper, dollies, fabric or whatever materials you have to build a dream-like wallpaper. Fill most of the page.

**Step 3:** You can use the coloured pencils or markers to scribble onto the wallpaper. Think about your inner world, do you value certain objects, words or gestures? Show them in your artwork.

**Step 4:** Furnish your wallpaper's space with cut out 2D or 3D furniture. Do you need to add a pattern of fabrics onto these objects to illustrate your rich interior world?

**HAPPY CREATING!**
