Passion Projects is an exploration of the deeply personal inspiration and work of two of the 20th century's most acclaimed artists; Pablo Picasso and Marc Chagall. *Bullfight!* by Pablo Picasso explores his lifelong fascination with the sport, cultural tradition, and imagery of bullfighting. *The Bible* by Marc Chagall is a series of images reflecting stories told in the Old Testament, a source of inspiration for him.

1.5 HR ART PROGRAM

This program includes a facilitated tour with a take-home hands-on art project inspired by current exhibitions. With the *Passion Projects* exhibition we will be facilitating a print making activity. Hands-on art projects emphasize a contemporary mixed-media approach. The projects are age-appropriate and based on the principles and elements of art and design. These experiential components allow for student's own experience of the exhibitions to be enhanced and grounded.
